BAY ST. LOUIS, MISS., FRIDAY, DECEMBER 12, 1947

VOL. 56 — No. 50

Observations... From Around Town

(BY JAY WHOZIT)

The State of Mississippi celebrated its 130th birthday on Wednesday, of this week, December 10th, having been admitted into the Union on December 10, 1817. . . . Our hats are off to the Board of Supervisors for reducing the tax levy for the fiscal year 1947-48, as much as 3 1/2 mills, where the property owned has the benefit of Homestead Exemption. . . . The Flea-Fly Football game on last Sunday afternoon for the benefit of Brother Peter's Christmas Tree Fund was a grand success, financially and otherwise. . . . The Fleas were victorious by the score of 26-20. . . . Bay High School Cage team will open their 1947-48 Basketball season this Friday night, December 12, against Pass Christian, in a double-header, at Bay High Gym. . . . We of Bay St. Louis were saddened this week when death claimed Mrs. Catherine Sporn Blaise, wife of Mayor G. Y. Blaise, at 8 o'clock Wednesday night. . . . If you've ever wondered how many letters are mailed from the local Postoffice in a single month, here are some figures. . . . During the month of November, 74,100 letters were handled through the Bay St. Louis Postoffice, according to Postmaster Ford. This is an average of 24 letters for every man, woman and child in Bay St. Louis. . . . Two colored football teams, the Bay Tigers and Keesler Field, will meet in a benefit game for St. Stanislaus Christmas Tree Fund, at Stanislaus Stadium, this Friday night, December 12th, admission price will be 60c, so come out and help a worthy cause. . . . The Mississippi State Highway Department is asking for bids for construction of grading, drainage structures, and alternate types of pavement on 5.6 miles of U. S. Highway 90 between Bay St. Louis and the Miss-La. line. . . . This is a Federal Aid project. . . . for those who are interested in the Bay High School Basketball schedule is published elsewhere in this issue. . . . U. S. Marine Sgt. Pete A. Crill, Recruiting Service, will set up headquarters in the Postoffice this Friday, December 12th, from 8 a. m. to 4:30 p. m. . . . Speaking of Santa Claus and what we might like for him to bring to us on Christmas, wouldn't it be nice if we of Bay St. Louis, could wake up on Christmas morning and find in our proverbial stocking: a new paved beach road, the entire length of our beach front from our own people and summer visitors; a drainage system second to none; an incinerator to dispose of the garbage; deMottuzin avenue and Dunbar Avenue, and several unpaved streets, newly paved; all buildings removed from the beach side of Front Street, and in their stead a beachfront park, complete with benches and a playground for children; a new concrete highway bridge to replace the fast-decaying, wobbly wooden relic, we now call a bridge; but gosh, why do we always have to be awakened from beautiful dreams so suddenly and plunged right back into reality? . . . Our local stores are beginning to show the holiday spirit, several already having beautifully decorated Christmas trees in their windows besides other Yuletide decorations. . . . The City Commission Council is advertising in this issue for sale of \$15,000.00 of school bonds, to finance the construction and equipping of the new colored public school now in course of construction.

Reports were heard on the four cases of Cancer handled by the local unit at the meeting on Monday night of the Hancock County unit of the American Cancer Society with Mrs. W. L. Bourgeois, director of the unit presiding. The meeting was held at Hotel Reed and was well attended. In the four clinics of the State 118 cases were handled in the month of November and a total of 1188 in the year 1947.

As evidence of the progress and increasing interest in the work of Cancer treatment and prevention, plans are being formulated for establishing a fifth clinic to be located at Gulfport. This is of particular interest to Hancock County.

Plans for the annual campaign for funds were tentatively made and the date will be in the early spring. There will be a meeting in January, time not set, for the further discussion of the educational program. There was much interest evidenced in the meeting by the representatives from other organizations and they are anxious to carry on the program.

Minstrel Closes 1947 Little Theater Season

The Bay St. Louis Little Theater brought its second season to a successful close with the hilarious presentation last week of its own "Minstrel Follies of 1947." For three successive nights capacity crowds packed the Carroll Avenue Playhouse to enjoy the antics of seventeen local minstrels and so impressed were members of the audience from Pass Christian that the cast has been urged to present the Follies again this week in that city.

Author and director of the entire program, with the exception of the second act, was John Bell, who was assisted in directing by Lennie Tonkel. The first act, a laugh-filled short play taking place in two adjoining apartments, was effectively presented by Mrs. Clifton Ferrell, John Bell and Mr. and Mrs. Alvin Weinfurter. Act two, in reality a cleverly-done interlude given before the curtain, was written by Mrs. Cynthia Kernan, who made an unbelievably realistic Charlie McCarthy for Lt. J. N. Horrocks' suave Edgar Bergen. Act II, the minstrel proper, was filled with music, dances, and fun, propelled along mostly by its interactor, Dr. J. A. Evans, and by its jokers, Ray del Rio, Richard Shadoin, Ed Larroux, Dr. John L. Griffin, Dennis Tonkel, Major A. O. Hoefeld, and others. Songs and dances which really delighted the audience, as evidenced by their spontaneous insistence on encores, were given by Dennis Tonkel, Ed Larroux, Ed Ireland, Ray del Rio, Mark Solomon, Donald Cole, and John Bell; and final clarinet-and-drums number by George Wimberly and Dennis Tonkel almost brought down the house.

Musical accompaniment for the entire program was furnished by Mrs. J. B. Goldman at the piano and Mrs. Katherine Wilson on the violin, with special numbers having talented drum-accompaniment by young Keith Tonkel, son of Mr. and Mrs. Dennis Tonkel.

Following the Saturday night performance, the cast, the production staff, and their guests were entertained at an open-house by Mr. and Mrs. H. M. Revell, Jr., at their home on Carroll avenue.

Beware of Imposters

Within the last two months it has come to our attention that there are certain individuals going about over the state visiting old age assistance clients and in one way or another get few dollars they have ahead for doctor bills, burial expenses, etc.

Two young men visited an old negro man in Pike County and told him if he did not give them some money they were going to have him taken off his old age payroll. He tried to argue with them but finally he gave them what few dollars he had. This week two men went to an old age client in Jones County and told him they were traveling for the State Welfare Department, selling blankets. They told the old man that if he would buy a blanket he would have his check raised to \$40 a month. The old man bought a blanket, paying perhaps two or three times as much as it was worth.

Bids Asked For Pavement Of U. S. Highway 90

The State Highway Commission has asked for sealed bids to be received on Tuesday, December 30th, for the paving of that part of Highway 90 between Bay St. Louis and the Louisiana Line which has recently been rebuilt.

This will complete the paving of this road from Bay St. Louis to the Louisiana Line and will fill a long felt need. Many accidents have occurred on this particular stretch of road. The pavement on the old road has worn down and become slippery and is extremely dangerous in rainy weather.

The Hyde Construction Company of Jackson have recently completed their contract for the earth work on this section of the road.

Wild Ducks Scarce For Season Opening

Hunters who went into the marshes on Monday afternoon and Tuesday morning after the elusive wild fowl reported poor hunting with very few ducks in evidence. Some killed their limit of 4, but most didn't do that well.

About the middle of November there were thousands of ducks in the marshes, but due to a reported lack of food, they have moved on to other areas.

Legion Auxiliary Completes Plans For Membership Drive

The major part of the business session of the American Legion Auxiliary at its meeting on Monday evening in the auditorium of Bay High was the completing of plans for the membership drive which is being launched. The members have been divided into two teams—red and blue—and will work under two captains Mrs. Louis Pate and Mrs. Joseph Kern.

A program of Christmas carols was rendered under the direction of Mrs. Louis Pate.

This was a creditable program for the reason that this chorus was formed only a month ago with ten members and who meet each week for practice. The regular practice meeting will be dispensed with until after the Christmas holidays but will meet on January 2nd at the home of Mrs. Pate. All who are interested and are eligible to join the auxiliary are invited to attend this meeting.

To the utter surprise of one of the best loved members, Mrs. W. L. Bourgeois, a party had been planned for her as it was her birthday and many gifts and expressions of love were showered on Mrs. Bourgeois.

Refreshments were served in the Home Economics room which ended a well attended and pleasant meeting.

The traditional wedding marches were played by Mrs. Sidney Otis, for the processional and recessional and preceding the ceremony Miss Osburn, cousin of the bride sang "At Dawning" and "If I Could Tell You."

Following the ceremony a reception was held for the families of the bride and bridegroom at the home of the bride's parents where white chrysanthemums and ivy gave a brightness and cheer to the rooms. The bride's table was covered with a hand crocheted cloth and centered with the wedding cake surrounded with sprays of ivy. Miss Barbara Osburn presided at the punch bowl at the bride's table and Miss Shirley Fountain presided at the second bowl. The young ladies were assisted in serving by Mrs. H. Evans Maloney and Miss Thelma Otis.

Crib to Cabin

Pioneers who settled South Mississippi built their cabins, furniture, spinning-wheels and fences out of wood. They used logs for fuel as well as shelter and wood was employed to make wagons, build bridges and boats. Babies were rocked in wooden cradles and the dead buried in pine boxes. Wooden waterwheels ground corn and sawed logs.

Thus a "forest primeval" was reduced to lumber, as villages sprang into being to become cities and Gulfport, founded on timber, became the world's foremost exporter of Long Leaf Yellow Pine. Crossties were cut for railroads. Naval stores extracted turpentine from tree and stump and paper mills were established along with wood-working and pressed-wood plants. Pecan and tung oil trees were cultivated on cut-over land to create new industries.

Soil, climate and rainfall combine to provide in Mississippi timber resources equal to any state in the Union. Trees are still our major crop and reforestation vital to our existence.

There are now 16,500,000 acres of forest land in Mississippi. There are 277,500 acres in Hancock County, 323,900 in Harrison, 397,300 in Jackson and 370,950 in Stone. Over one million acres in trees in these four counties produce an annual yield worth \$1,500,000.

At an average growth of 125 board feet per acre per year, Mississippi enjoys a \$25,000,000 annual tree crop. This potential wealth is worth fire protection, and reforestation deserving of private and public encouragement. We have no more valuable natural resource, for timber alone can be made to grow and reproduce itself.

Forest products, now the country's fifth industry, become increasingly important. Tonnage of wood exceeded tonnage of metals used in the second World War. We are on the threshold of developments in the use of wood as revolutionary as the invention of the steam engine. Chemistry, which extracts motor fuel, oil and other products from wood and converts pulp into plastics, is in its infancy. Wood becomes as indispensable to us as it was to our pioneering fathers.

The United States Department of Agriculture warns that this nation, the world's largest consumer of wood, is running out of trees.

Schools and citizens should stress reforestation as essential to our security and the state itself, where individuals fail, should acquire land and "keep our forests green." The economical development of South Mississippi grew on trees and nothing in our economy is more important than reforestation to sustain for us and posterity an enduring prosperity.

U. S. Army Broadens Opportunities For Regular Commission Candidates

Atlanta, Dec. 10—Enlisted men and officers of the Army who have had no college training now have an opportunity to compete for appointments in the Regular Army, according to information released by Headquarters Third Army today. Enlisted high school graduates may compete for admission to the United States Military Academy to fill vacancies allotted to enlisted men of the Regular Army for admission on July 1, 1948. Eligible enlisted men selected for this competition are offered preparatory academic training in courses under the direction of the United States Military Academy. United States Military Academy preparatory training is also offered qualified officers and warrant officers on active duty in the Army, Navy, Marine Corps and Coast Guard.

For the Reserve Officer with no college training the Army offers a competitive tour of duty looking to an appointment in the Regular Army. The former provision that an applicant must have had two years of college work in an accredited institution is broadened to provide that an applicant who is a graduate of an accredited high school will be acceptable provided he makes a passing score in examinations that will be provided.

Recruiting Service For Marine Corps To Be Set Here December 12th.

Jackson, Miss., Dec. 6—Good news has been forthcoming from Headquarters Marine Corps as far as physical requirements for entry into the U. S. Marine Corps are concerned.

Staff Sgt. Pete A. Crill, Marine Corps recruiting service will be in Bay St. Louis, Friday, Dec. 12. He will set up recruiting headquarters in the Post Office Building and the office hours will be from 8:00 a. m. until 4:30 p. m.

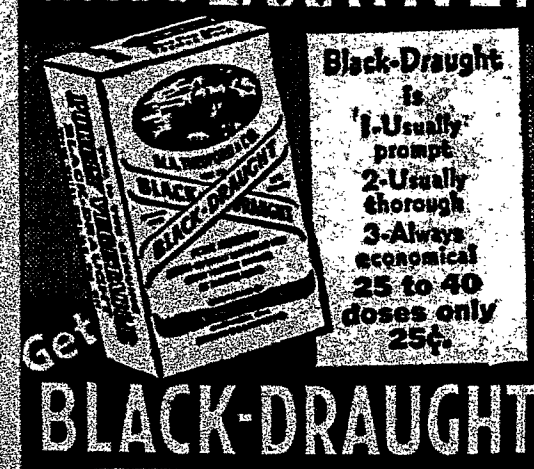

New directives from Washington greatly modify the physical standards for enlistment in the Corps. The color-perception-test will be given for record purposes only... the dental standards have also been modified.

A fresh appeal to young men to enroll in the Marine Corps Reserves program was made today by Lieutenant S. R. Jones, Jr., Officer in charge of Marine Recruiting for Mississippi when he announced the recruiter's arrival in Bay St. Louis.

Upon entering the Corps as a private, a new Marine draws \$75 a month, plus food, clothing, quarters, dental and medical care and free entertainment. When serving aboard ship or at a foreign post he draws 20 per cent additional pay. After 10 weeks of recruit training, privates may be promoted to private first class, if they have maintained a good record.

Young men... if you were ineligible for entry into the Corps under the old standards, then you should visit the recruiting office and consult Sergeant Crill as to your eligibility under this modified directive.

Veterans News

The Veterans Administration has announced that prima facie evidence will not be accepted as sufficient proof for veterans to establish service connection for medical and dental treatment after December 31, 1947.

On this date, veterans will have had a full year after the President announced the end of hostilities in which to secure treatment on the resumption of service connection, based on Prima facie evidence.

VA takes the position that this should have been ample time for emergency or clearly defined service-connected cases to have received treatment.

The discontinuance of determination on prima facie evidence in no way denies veterans any rights they are granted by law, nor does it limit services given those whose conditions are rated as service-connected.

Applications for treatment received on or before December 31 or after that date with a December 31 postmark, will be determined on prima facie evidence. After December 31, applications will have to be formally adjudicated under the Regulation before treatment other than emergency can be given.

This ruling in no way affects the year's resumption of service connection to which all veterans are entitled after discharge.

QUESTIONS AND ANSWERS

Q—Will Veterans Administration guarantee a G-I loan for an automobile house trailer that I can use during my vacation to house me and my family?

A—No. Loans for pleasure purposes cannot be guaranteed or insured by Veterans Administration.

Q—I would like to change the beneficiary on my National Service Life Insurance Policy without letting the old beneficiary know about it. Can I do this?

A—Yes. A veteran may change the beneficiary or beneficiaries of his National Service Life Insurance at any time without their knowledge or consent.

Q—I have a G-I loan and now have lost my job. Does the law permit me to get the additional benefit or readjustment compensation?

A—Yes, you are entitled to readjustment allowance.

Q—To what benefits is a veteran with a yellow or blue discharge entitled?

A—A yellow discharge from the Army is not entitled to Veterans Administration benefits. A yellow discharge from the Navy may be dishonorable. . . the veteran is entitled to file a claim and VA will determine whether or not the discharge was under dishonorable or other than dishonorable conditions. The latter also applies to blue discharges from the Army.
